EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Page 12, Line 20: Insert the word --the-- before the word "loop".

2. Claims 1-42 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Sensing quiescent current is not new in the prior art. The method for adjusting quiescent current taught by **Brayton et al** [U.S. 6,046,642] is an active bias compensation circuit that senses quiescent current to maintain optimal DC biasing of an amplifier. However, there is no teaching of a process device that senses quiescent current in an industrial process coupled to a process control device and diagnostic circuitry. This is considered novel and unobvious in light of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Needham et al [U.S. 5,570,034] senses quiescent current in a CMOS integrated circuit.

Hsue [U.S. 5,392,293] senses quiescent current in an integrated circuit.

Verhelst et al [U.S. 5,057,774] measures the quiescent current of a digital IC.

Maly et al [U.S. 5,025,344] senses abnormal quiescent current flow.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John A. Tweel, Jr. whose telephone number is 571 272 2969. The examiner can normally be reached on M-F 10-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jeff Hofsass can be reached on 571 272 2981. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
